

## SEEK TO CLEAR UNION EXECUTIVES

**McMANIGAL AND McNAMARAS  
ARE ALONE RESPONSIBLE**

**Defendants Contend Iron Workers of-  
ficials Knew Nothing of \$1,000 Ex-  
pended From Funds For Destroying  
Non-Union Property.**

INDIANAPOLIS, IND., NOV. 25.—The contents of the defendants' trial of McNamara and Orrie McManigal alone were responsible for the explosions and that the iron workers union executive board and President Frank M. Ryan knew nothing of any \$1,000 expended from the union funds for destroying non union property were pursued in the cross examination of McManigal at the "dynamite conspiracy" trial today.

Before being turned over by the prosecution, McManigal had told stories of how he and the McNamaras had talked of blowing up the locks of the Panama canal and how James B. McNamara was to return to Los Angeles "and wipe that city off the map," by a series of explosions, and how they were prevented from carrying out these plots by their arrest in April 1911. He also had related that after his and James B. McNamara's arrest in Detroit and on the train to Chicago, James B. offered Guy Biddinger, a detective \$30,000 to allow them to escape, telling Biddinger "if you don't get it, Clarence Darrow will."

Senator John W. Kern for the defense cross examined McManigal. "Was the money you received from the McNamaras your motive in causing so many explosions?" asked Senator Kern.

"No, it was not money. Herbert S. Hockin when he first started me into dynamiting terrorized me, saying if I didn't do it, he would prevent me from getting work. Then I was prompted by a foolish notion that it was for the good of the iron workers union. My mind was in flames with the idea it would build up the union."

Under Senator Kern's questioning McManigal admitted that notwithstanding the admission of dynamiters that they caused the Los Angeles explosion and killed 21 persons by killing the treasurer of the automobile races at the speedway in Indianapolis, he continued to keep company with them. McManigal told in detail how much he was paid for each "job."

Other witnesses told of dynamiting alleged to have been done by union agents and more was told of the Wisconsin hunting trip of McManigal and McNamara.

## TESTIMONY FOR GOVERNMENT BRINGS OUT FITZGERALD'S FINANCES

**Show Financial Condition of Former Assistant Teller Now Accused of Embezzlement.**

Chicago, Nov. 25.—Evidence introduced by the government today in its case against Geo. W. Fitzgerald, the former assistant teller of the Chicago sub-treasury accused of having embezzled \$173,000 showed that the defendant had in his possession more than \$14,000 in the two years following the disappearance of the money. The defense contends it can explain the source of every dollar that Fitzgerald handled.

Miles M. Barber testified that he received from Fitzgerald \$8,500 July 1st, 1908 for a house in Rogers park.

Edwin McNeill a broker declared Fitzgerald sold twenty shares of Trinity Copper company stock and four Chicago City Railway company bonds for more than \$4,000.

It was established through a cancelled check that Fitzgerald received \$1,649 from William H. Colvin and company, April 6th, 1909.

E. Z. Wallerstein, an insurance agent testified that Fitzgerald had paid him \$500 to carry on stock transactions. It was brought out at a previous hearing that Fitzgerald had deposited \$600 with Alfred L. Baker and company on the day the shortage occurred to buy Trinity Copper stock.

## COURT DOES AWAY

**WITH RECEIVERSHIP.**

Kansas City, Nov. 25.—Following the receipt of a writ of prohibition from the state supreme court today doing away with the receivership of the Great Western Life Insurance, the books and moneys of the concern were returned to Thomas R. Marks, president, by the Commerce Trust company, appointed receiver in the circuit court last week. The Great Western has \$17,000,000 of insurance in force.

After the dissolution of the receivership the legal battle over the proposed merger of the Great Western and the International Life Insurance company of St. Louis which owns a majority of the Great Western stock was transferred from the courts to the hands of state insurance commissioner.

## WIL RECEIVE DEATH SENTENCE

New York, Nov. 25.—Sentence of death in the electric chair will be pronounced tomorrow upon the four gunmen convicted of murdering Herman Rosenthal at the investigation of Charles Becker, former police lieutenant.

"Gyp the Blood", "Lefty Louie", "Whitey Lewis" and "Dago Frank" will appear then before Justice Goff in the supreme court for sentence.

## GIRL SUICIDE LEAPS 20 STORIES TO DEATH

**DROPS 250 FEET AND EVERY BONE IN  
HER BODY IS BROKEN**

**Was Possessed With Idea That She  
Was In Danger from "White  
Slavers"—Makes Extensive Pre-  
parations For Death—Believed to  
Have Been Deranged Mentally.**

CHICAGO, NOV. 25.—Possessed with the idea that she was pursued for dishonorable purposes, Miss Maude Van Deussen, 25 years old leaped from the twentieth story of the McCormick building and was crushed to death on the stone paving of an alley at the street level. She jumped from an alley fire escape nearly 250 feet above the ground, among many pedestrians. Her body struck another fire escape at the first floor and bounded into the alley. Nearly every bone in her body was broken.

Miss Van Deussen, according to papers found in her pocket book which she carried down with her, was a school teacher in Humboldt, Neb. From her papers it appeared that she had been seeking a position here and had been seized with the idea that she was in danger from "whitelashers." She wrote that she had been driven to appeal for protection to Chief of Police McWeeny and to the federal department of justice to social settlement workers.

She had prepared for her death by pinning across her bosom a strip of white linen which had been stained crimson at each end and on which she had printed in large letters, "Death before dishonor." She had tied around her neck a copy of the New Testament in which she had pinned a photograph of her handbag in her hand as she jumped and it was picked up near her side. In it was another marked bible and long typewritten statement which she had entitled "Part Of My Life's History."

"I will die clean if I have to kill myself," was written at the head of one of the sheets. The police believe the woman was deranged mentally.

**Well Known in Falls City.**  
Falls City, Mich., Nov. 25.—Miss Maude Van Deussen killed in Chicago today was well known in Falls City where she taught school.

About six years ago Miss Van Deussen suffered from some peculiar ailment and became estranged from her family. She imagined they were trying to deprive her of some property. For a time she was treated in a Lincoln hospital and later she went to Chicago. For the last two years her relatives knew little about her, but they understood she was working her way in Chicago, as typist or stenographer.

## SHIP BUILDING COMPANIES ON GREAT LAKES REFUSE TO REPAIR U.S. VESSELS

**Will Enter Into No Repair Contracts  
With Government on Account to  
the Eight Hour Law.**

Washington, Nov. 25.—All United States naval vessels may be withdrawn from the great lakes as a result of the refusal of ship building companies on the lakes to enter into repair contracts with the navy department on account of their hostility to the eight hour law. The lake plants are operated on a ten hour basis, and, although Attorney General Wickersham ruled that a company working on a government contract would use its men on other work after employing them eight hours on the government job, none of the companies wants a contract from the department. The test came when the department vainly endeavored to have repairs made on the converted yacht Dorothea.

The situation is not considered particularly serious because the United States keeps vessels on the lakes only for use in training naval militia. Under existing treaties the government has no police boats along the Canadian border and if the training craft cannot be repaired on the lakes they will be withdrawn and sent to other waters. Besides the Dorothea, there are now on the lakes the gunboats Don Juan De Austria and Dubuque, the steamers Essex, Gopher, Hawk, Wolverine and Yantic.

## PLAN FOR HEARING IN PREPARATION FOR CURRENCY REFORM LEGISLATION

**Committee Will Receive Complaints  
and Recommendations as to Coun-  
try's Currency System.**

Washington, Nov. 25.—Plans for extended hearings to receive complaints and recommendations as to the country's currency system were discussed today by the sub-committee of the house banking and currency committee which has charge of the preparation of currency reform legislation.

No definite date was set, but it was understood that hearings will begin early in January. Bankers, particularly the smaller country bankers, merchants and representatives of labor interests will be asked to appear before the committee.

## FIRE BRINGS PANIC

Chicago, Nov. 25.—A moving picture theater took fire here tonight from an overheated furnace in the basement and three explosions followed after filling the house with smoke. Five hundred persons stampeded for the street. Women were trampled, their skirts torn and their children separated from them and dragged away in the rush. No one was badly hurt.

## EXPLOSIONS WRECK WAUKEGAN PLANT

**DRY STARCH HOUSE OF CORN  
PRODUCTS CO. DESTROYED**

**Between Eight and Twelve Men are  
Killed and Twenty Seven Injured—  
Property Damage Reaches \$100,000  
as Result of Disaster.**

WAUKEGAN, ILL., NOV. 25.—An explosion which wrecked the dry starch house of the Corn Products company's plant this afternoon killed between four and twelve workmen, injured 27 others, several of whom will die and caused about \$100,000 property damage.

The list of dead includes: Martin Slater, Peoria, Ill., assistant superintendent of the plant. Frank Stanley, laborer. Charles Tomalia, laborer. Peter Dogala, laborer. John Adams, laborer. Joseph Seleneck, laborer. John Grabowsky, laborer. Unidentified laborer.

Four other laborers late tonight were reported missing. These were Martin Matuchutuk, Louis Monday, Michael Bunch, and Joseph Pedroski.

Martin Slater of Peoria, assistant superintendent of the plant was among the seriously injured. Slater was being trained to take charge of the Corn Products company's new plant at Pekin, Ill.

Uncertainty as to the number of dead was caused by inability of firemen to search the burning ruins of the explosion. Edward Conrad, deputy in the Lake county coroner's office was authority for the statement that twelve men at least had been trapped in the wrecked building. Charles Ebert, superintendent of the Corn Products company's Waukegan plant said that only three men had been killed and twenty seven injured by the explosion.

"Only thirty men had business in the starch house at the time of the explosion," Mr. Ebert said. "We have twenty seven of these. The Jane McAllister hospital and three bodies, or portions of bodies, have been recovered. That checks the list and I think this will be found to be absolutely correct."

Mr. Ebert admitted it was possible that additional workmen not employed in the starch house might have been caught in the explosion but said that this was improbable.

Nearly all of the workmen killed or injured were Polish, Lithuanian or Austrian and they were on the company's payroll by numbers and not by names. This further increased the difficulties met by the coroner in his efforts to arrive at a correct death list.

The explosion tore the two story frame house from the five story building and scattered it in all directions. The body of one man was blown across the Chicago and Northwestern railroad rightway onto the hillside in Oakwood Cemetery.

Firemen from North Chicago, the National Envelope's plant and the American Steel and Wire company's plant in preventing spread of the fire to other portions of the big plant. Although the fire appeared to be under control tonight the firemen said they expected it would continue to burn tomorrow with the possibility that new explosions would start afresh.

Officials of the company tonight said they had been unable to arrive at a decision as to the cause of the explosion. Workmen at the plant gave as their opinion that the overheating of the product in the large starch kilns had caused the explosion.

Crowds waited about the plant until a late hour believing that more bodies would be discovered in the burning wreckage.

## CARNEGIE SEES BRIGHT SIDE OF LIFE AS HE CELEBRATES BIRTHDAY

**Says he Holds Higher Opinion of  
Human Race Than Ever—"Woman  
Has Attained an Almost Ange-  
lic Height."**

New York, Nov. 25.—The universe is well, according to a sweeping diagnosis of affairs which Andrew Carnegie made in a genial philosophical mood on his 77th birthday today. He said that anyone who believed the country was going to the bow-wows was sadly mistaken.

"We pick our own king," he said in comment upon the elections, "and we always pick good ones."

"Do you know the reason I'm so happy?" he asked. "It's because I have a higher opinion of the human race than ever, and this higher opinion is caused by knowing many men and women. Women," he continued after a pause, "woman has attained an almost angelic height."

Mr. Carnegie spent the day quietly in his Fifth Avenue home receiving many congratulations from friends who called or sent telegrams.

## "HUMAN BOMB" HELD

Los Angeles, Cal., Nov. 25.—Carl Reidelbach alias Carl Warr, the human bomb, was bound over today to the grand jury by Police Judge Williams and a few minutes later the grand jury was investigating the case. Reidelbach's bond was fixed at \$20,000.

Reidelbach said tonight he expected to plead guilty when arraigned in the superior court.

## ELECT OFFICERS IN SUFFRAGE ASSOCIATION

**DR. ANNA SHAW AGAIN HONORED  
WITH PRESIDENCY**

**Jane Addams Unanimously Chosen  
First Vice President—Association  
Endorses Non-Partisan Political  
Policy.**

PHILADELPHIA, NOV. 25.—Dr. Anna Howard Shaw was this afternoon re-elected president of the National Woman Suffrage association. The vote was: Dr. Shaw, 291; Laura Clay, Kentucky, 200; Catherine W. McCullough, Illinois, 13; Jane Addams, Chicago, 11.

Jane Addams was unanimously re-elected first vice president.

The other officers chosen are: Second vice president—Annitte Whitney, California.

Recording secretary—Susan W. Fitzgerald, Boston.

Corresponding secretary—Mary Ware Dennett, New York.

Treasurer—Mrs. Stanley McCormick, Chicago.

Auditors—Mrs. James L. Laidlaw, New York, and Mrs. Joseph T. Bowen, Chicago.

The resolutions committee report contained less than 100 words, placing the association on record as favoring a non-partisan political body. The resolution on this point read:

"Resolved, That the National Women's Suffrage association shall maintain its time honored tradition of being absolutely non-partisan as to political parties."

It was adopted without a dissenting vote.

Dr. Anna Howard Shaw in a brief speech in which she showed much feeling said she would give the association her loyal support and in return demanded loyalty from the members.

One of the most impressive addresses of the day was made by Leonard O'Reilly, head of the women trade unions in New York, who spoke in behalf of working girls. She requested the college women in the audience not to correct the grammar of working girls, but merely let the girls do things in their own way, and feel encouraged by their support.

"Don't try us," continued Miss O'Reilly, "when we come to you for help. Don't be afraid of us when we go on strike. We must protect ourselves."

A big mass meeting was held tonight under the auspices of the association at the Metropolitan Opera House. Prominent speakers made addresses.

## BUILDING TRADES DEPARTMENT OF FEDERATION OF LABOR CONVERSES

**Gompers Prevented From Attending  
Opening Meeting by Illness—Re-  
ports of Officers Take up First  
Day's Session.**

Rochester, N. Y., Nov. 25.—Samuel Gompers, president of the American Federation of Labor, was prevented by illness from participating in the opening of the annual convention of the building trades department of the federation this morning but is not seriously indisposed. The strain of the two weeks' meeting of the majority body and a cold contracted Saturday kept him in his room at a hotel yesterday and today, but it was said tonight that he likely will be out tomorrow.

The building trades department is made up of 194 unions with a membership of 476,237. Today's sessions were devoted to reports of officers and the executive council and the appointment of committees by President James A. Short. The executive council reported inability to give statistics about the number of men killed or injured in building trades industries owing to the incompleteness of state and federal census reports on the subject. It was made known that the charter of the Amalgamated Association of Carpenters and Joiners had been recalled because of the association's refusal to unite with the United Brotherhood of Carpenters, as directed by the federation.

## FATE MAY BE KNOWN TO DAY

Salem, Mass., Nov. 25.—The fate of Joseph J. Ettor, Arturo Giovannitti and Joseph Caruso, charged with responsibility for the murder of Anna Lopizzo in a strike riot at Lawrence last winter is reported tonight to have been determined by the jury which tried them, but the verdict will not be known until tomorrow.

## WILSON'S PLURALITY IN NEBRASKA

Lincoln, Neb., Nov. 25.—The official count of the Nov. 5th vote shows that Woodrow Wilson has a plurality in Nebraska of 36,333. The vote for the candidates for president was:

Wilson 109,190; Roosevelt, 72,776; Taft, 54,348; Debs, 10,219; Chadin, 3,419.

## DENY REPORTS OF WAR PREPARATIONS

**WOULD REPRESENT SITUATION  
AS PEACEFUL**

**Turkey May Seek to Benefit and Profit by the Embroilment of the Powers and Adopt Unfair Attitude in Peace Negotiations.**

LONDON, NOV. 25.—The extreme anxiety manifested by the European governments to deny reports of warlike preparations and to represent the political situation as peaceful and satisfactory, is in itself an indication on how slender a thread the issues of peace and war in Europe now hang. The danger arises not alone from the conflicting interests of Austria, Serbia and the other powers, but from the possibility that Turkey, following the traditional policy of profiting by the embroilment of the great powers, may adopt an irreconcilable attitude in the peace negotiations. Beyond the fact that the plenipotentiaries met today nothing is known—not even whether an armistice has been arranged. There appears to be a suspension of operations at the Tchatalja lines, apparently by tacit consent here than by formal agreement. The semi-official Bulgarian newspaper Bled editorially voices the governmental irritation at Turkey's dilatory methods of negotiation and accuses the porte of deliberately nominating delegates from remote points in order to gain time. This probably refers to Osman Nazam Pasha, the ambassador to Germany, who only arrived at Constantinople from Berlin today.

In the diplomatic field the most important reports are that Serbia declines to reply to the Austrian demands until the war is concluded and that Germany has not undertaken to mediate between Austria and Russia. The news that Serbia is throwing further obstacles in the way of the Austrian representative in search of Prochaska, the Austrian consul at Pristina is another disquieting feature.

Fighting continues around Adrianople where the besieging forces are reported to have drawn their investing circle to within two-thirds of a mile of the town.

**No Fighting at Tchatalja.**

"No further operations have taken place in the Tchatalja," says the Morning Post's Constantinople correspondent.

"The Bulgarians are believed to have withdrawn considerable of their forces from the vicinity of Adrianople."

"A divergence of opinion has arisen between the ambassadors of the powers here regarding the porte's demand for the withdrawal of the marine detachments in Constantinople. The German and Austrian ambassadors share the porte's opinion while the others consider the presence of the marines still necessary."

A despatch from Durazzo to the Daily Telegraph says the Servians are about an eight hours' march from Durazzo.

The Daily News correspondent in a despatch which evidently evaded the strict censorship, says the cholera is pressing north from Constantinople. Already there are several hundred cases at Mustapha Pasha and has entered Bulgaria. The foreign doctors have met to consider what advance could be offered the government respecting precautions to prevent the spread of the disease.

The cholera the correspondent adds is raging at Adrianople and is spreading among the Servians. The losses to both Turks and Bulgars have been enormous.

Early Thursday morning, after a fierce engagement, the Bulgarian infantry actually entered a suburb of Adrianople where street fighting followed but was compelled to retire. The Bulgarian and Servian losses since the beginning of siege have been 12,000 killed and wounded. The hospitals for the wounded are insufficient but provisions for the cholera patients are dangerously inadequate. Bodies of those who perished from the disease are being buried.

It is feared that Austria will establish a quarantine almost immediately.

A Constantinople despatch to the ally News says:

"Despite the utter inadequacy of their home hospitals and attendants the Turks appear unwilling to make use of the European corps of volunteers to anything like the extent they might. Certain military units although abundantly supplied, have been unable to fill half the beds."

"One English unit with 200 empty beds went out to the by-ways looking for wounded and brought in one Turk with his ankle shattered. He is now being cared for by four surgeons and sixteen nurses in addition to several assistants."

## GIVES TESTIMONY IN CASH REGISTER CASE HEARING

Cincinnati, Nov. 26.—Henry G. James, an automobile salesman, the opening witness for the government in the case of President John H. Patterson and twenty-nine other officials and former officials of the National Cash Register company charged with violating the criminal section of the Sherman anti-trust act, occupied all of today's session in the case and was on the witness stand when court adjourned today. James' testimony had to do with methods alleged to have been pursued in dealing with opposing firms.

## CAMPAIGN FUND TOTALS \$668,869

**CONTRIBUTIONS RECEIVED TO AID  
CANDIDACY OF ROOSEVELT**

**Bull Moose Campaign Fund App'ars to Have Been Liberally Donated to and Totals Huge Amount—Expenses \$641,780.**

ALBANY, N. Y., NOV. 25.—Contributions totalling \$668,869 to aid the candidacy of Col. Roosevelt for the presidency, were received by the national committee of the Progressive party according to a certificate giving the figures filed with the secretary of state today. The expenses of the committee were \$641,780.

New York state committees of the Progressive party certified that it received \$210,363, of which \$88,550 was contributed by the national committee.

George W. Perkins gave the national Progressive committee \$130,000 while Frank A. Munsey contributed \$101,250.

Douglas Robinson gave \$51,250; W. E. Roosevelt, \$50,000; Robert Bacon \$29,500; A. Heicksher and Alexander Smith Coburn, each \$25,000; Thomas Platt, Mass., \$20,000; George F. Porter, Illinois, contributed \$11,500 and Alfred L. Baker, also of Illinois \$5,000.

The Democratic state committee filed a certificate showing that it received \$213,837 and expended \$198,965. The Republican state committee certified that it received \$229,911 and spent \$319,226, leaving a balance of \$10,625 to meet out standing bills aggregating \$10,750 and four loans amounting to \$74,850.

## ROBINSON TELLS OF PURCHASE OF MILWAUKEE HARVESTER CO. BY I. H. C.

**General Manager of Case Co., Testifies He Negotiated Option of Property to Morgan and Perkins.**

Chicago, Nov. 25.—Fred Robinson, vice-president and general manager of the Case Threshing Machine company of Racine, Wis., a \$40,000,000 corporation, was the principal witness for the government today in the suit for the dissolution of the International Harvester company.

He was at one time a member of the Milwaukee Harvester company, the \$6,000,000 concern which was absorbed by the International Harvester company in 1902.

Profits of the Milwaukee company, according to the witness who negotiated the option of the property to J. P. Morgan and George W. Perkins averaged \$500,000 a year for two years previous to the acquisition of the property by the combination formed in 1902.

Mr. Robinson was followed by E. K. Butler, organizer and president of the Keystone company at the time of its absorption by the alleged harvester combine. The witness testified that he sold his interest in the Keystone company in 1903 to the McCormicks, Deering and other interests in the international company.

## LIFE PRISONERS AFTER 18 YEAR INCARCERATION APPEAL FOR RELEASE

**Contention That They Were Con-  
victed on Fraudulent Testimony is  
Basis of Petition for Freedom.**

Chicago, Nov. 25.—After eighteen years in the penitentiary at Joliet on a life sentence for murder, Chas. Kurth, 45 years old, and Thomas McNally, 43 years old, today appealed for a habeas corpus.

In 1894 the two were sentenced for life for the murder of Patrick Prunty and his son, James Prunty. The contention that they were convicted on fraudulent testimony is the basis of the petition for release.

Counsel for Kurth and McNally assert that when the police arrested their clients relatives of the dead men failed to identify them and that after the trial the same men testified that Kurth and McNally were guilty.

Edward Warren, who was convicted with the two, was pardoned after five years imprisonment, because he was afflicted with tuberculosis, which later caused his death. The men were sentenced by Judge Freeman of the superior court, and he will hear the petition for the writ of release.

## KIRBY COLLAPSES ON STAND

Chicago, Nov. 25.—Dr. William Kirby, founder of the private bank bearing his name which is the subject of an inquiry in the federal court was on the witness stand today. He did not seem to know who his attorney is no who is paying the lawyer.

The questioning of the witness ended in his collapse and he was led from the court room by bailiffs.

## RAYNER FUNERAL TOMORROW

Washington, Nov. 25.—Funeral services for Senator Isador Rayner of Maryland who died here early today of neuritis after a protracted illness will be held Wednesday afternoon at the Rayner home in this city.

## FRANK SCOTT DEAD

New York, Nov. 25.—Frank Scott, president of the Century company with which he had been actively connected for more than forty-two years died suddenly today after a brief illness. Frank Hull Scott, was born in Terre Haute, Ind., 64 years ago.

## MAY CHOOSE JURY IN LESH CASE TODAY

**FIRST EVIDENCE MAY BE TAK-  
EN LATER THIS AFTERNOON**

**Indications are that Trial Will Occupy  
But Little Time—Only Three Wit-  
nesses Will be Called by State—  
Other Charge May be Dropped.**

SEDALIA, MO., NOV. 25.—Little progress was made today in the trial of Mrs. Pansy Ellen Lesh, charged with the murder of Mrs. Elizabeth Quaintance at Green Ridge, Mo. Court was in session only two hours after the work of selecting a jury began and at adjournment a panel of forty men, from which the twelve jurors will be chosen had been drawn from the special venire of 72 men. It was believed tonight that the jury could be completed and the introduction of evidence would begin late tomorrow.

That the trial will occupy little time was indicated by the announcement that the state would call but three witnesses.

The most important witness probably will be Fisher Quaintance, brother-in-law of the woman the defendant is accused of having poisoned while she lived in the Quaintance home in 1904. The other two state witnesses will be Green Ridge physicians who attended Mrs. Quaintance during her illness. The defendant's attorney has not stated how many witnesses he will call but it was believed that the testimony would be brief. A large crowd was attracted by the trial today. Mrs. Lesh, wearing a blue tailored suit and a picture hat with a large plume, followed the proceedings with interest.

**Pleads "Not Guilty."**  
"Not guilty," was the plea of Mrs. Pansy Ellen Lesh when arraigned in the criminal court here today charged with murder in the first degree as a result of her confession that she had poisoned Mrs. Elizabeth M. Quaintance at Green Ridge.

Selection of a jury began this afternoon. It was expected the taking of evidence would be begun tomorrow morning. Judge Longan, counsel for Mrs. Lesh, has stated that she will admit having made the confession but that the defense will attempt to prove that the quantity of poison administered was too small even to cause illness, and that Mrs. Quaintance died of pneumonia. Should the defendant be acquitted, it is expected the second murder charge connected with the poisoning of Mrs. Elizabeth Coe, of Sedalia to which Mrs. Lesh also confessed, will be dropped.

Relatives of Mrs. Lesh residing in Jacksonville believe that the jury will free her. Preparations are being made to bring Mrs. Lesh to Jacksonville, where she will spend a short time with relatives and later will make her home in Franklin, where her uncle, L. P. Luttrell, resides.

## SERIOUS CHEMICAL EXPLOSION AND FIRE OCCURS AT BROOKLYN

**Union Sulphur Company's Plant  
Plant on East River Water Front  
Scene of \$245,000 Fire.**

New York, Nov. 25.—Brooklyn's East river water front was the scene late today of the most serious explosion and fire that section has known for years. An explosion of chemicals in the Union Sulphur company's plant caused the disaster. Fifteen men were removed to hospitals suffering burns and injuries from which a number may die, several persons on the scene at the time were missing tonight, but late reports discredited earlier beliefs that several lives had been lost. An area of three blocks was swept and a loss of \$245,000 was caused.

## WILSON SUFFERS ILLNESS

Hamilton, Bermuda, Nov. 25.—President-elect Woodrow Wilson is suffering from an attack of acute indigestion. He spent the evening resting and said he expected to be fully recovered tomorrow.

### WILL PRESENT BRESNAHAN'S CLAIM BEFORE NATIONAL DIRECTORS

Letter Claims Roger Was Released Because Team Lost Money and Mrs. Britton Did Not Think He Tried Hard During Year.

St. Louis, Mo., Nov. 25.—Roger Bresnahan was unconditionally released as manager of the St. Louis National league baseball team because Mrs. Helen R. Britton, principal owner of the team, did not think he tried hard during the year, and because the team lost money, according to a letter Bresnahan's attorney prepared today to submit to the directors of the National league. According to the letter, President Jones of the club, offered Bresnahan \$2,500 for his contract which calls for \$10,000 annually and 10 per cent of the profits. Jones, however, the letter continues, refuses to pay Bresnahan his percentage of this year's profits unless he would surrender his contract, which has four years to run.

#### AUXILIARY ORGANIZED.

Women Will Aid in Campaign For Funds For Illinois Woman's College.

For some days past various little groups of women have been discussing the movement for endowment of the Woman's college with an ever growing conviction that the women of the community should share some part of the burden in the campaign being inaugurated. On Monday afternoon at a meeting held in the college chapel Mrs. E. C. Lambert was chosen temporary chairman. Miss Mary Price secretary. Dr. Hancher was invited to speak and in clear and forceful statements he explained the ruling of the collegiate boards which make obligatory the endowment of schools of college work. He showed the wisdom in the requirements, which would provide better equipment in the laboratories, the library and all departments. Dr. Hancher also indicated the loss of patronage that failure to meet the obligation would bring to the college and that the loss to the community to build here a high grade college would be irretrievable.

It was moved and carried with unanimous vote that a temporary organization be effected to assist during the several weeks of the campaign. A committee for the nomination of officers was named, including Mrs. J. N. Ward, Mrs. J. P. Brown, Mrs. W. T. Reaugh, Mrs. E. C. Carpenter, Miss Nettie Hayden.

Accepting the report of this committee, the following officers were elected: President, Mrs. J. J. Reeve; vice-president at large, Mrs. Charles Graff; vice-presidents, Mrs. J. T. King, Mrs. J. W. Haingrove, Mrs. Charles Ehler; secretary, Miss Mary Price; treasurer, Mrs. T. J. Pitner. In addition to these general officers it was recommended that each ward be organized with special officers to direct the canvass. For the first ward, Mrs. W. S. Badger, Mrs. A. Baldwin; second ward, Mrs. G. H. Kopperl; Mrs. U. G. Woodman; third ward, Mrs. T. H. Backthorpe; Mrs. E. C. Carpenter; fourth ward, Mrs. Thomas Hopper, Miss Florence Taylor; South Jacksonville, Mrs. Grant Graff, Mrs. A. Masters.

It was a matter of great encouragement that the ladies named accepted their call to this earnest service with the grace born of their sincere interest in the cause.

Mrs. Reeve accepted the chair and introduced the officers chosen with words of appreciation of the task to be undertaken but with strengthened courage and enthusiasm because of the earnest purpose expressed by all present.

The amount of the pledge to be assumed is under consideration and with further details of the organization will be announced later. Many solicitors are wanted in each ward and volunteers are asked for. Mrs. Reeve and all the officers will be glad to receive the names of any who are willing to assist in the canvass.

On Wednesday afternoon all ladies of the third ward are invited to meet with Mrs. Charles Ehler at 2 o'clock at her home, 271 Hardin avenue. On the same afternoon at 4 o'clock the ladies of the first ward will meet with Mrs. W. S. Badger, 320 East State street. Meeting for the second and fourth wards and South Jacksonville will be called later.

#### IN THE CIRCUIT COURT.

Decker Case is Now on Trial—Various Orders Entered Monday.

In the circuit court the trial of J. E. Decker and William Hale is now occupying attention. The defendants are charged with burglary and larceny, the alleged offense having been committed some months ago when cigars were stolen from the Kent-McCarthy factory. A jury was not secured until about 3 o'clock and Willie Flynn was the only witness placed on the stand before adjournment. Sheriff Rogers went to St. Charles Sunday and brought back the three boys, Flynn, Flowers and Hare, who are to testify. The jurors are as follows: J. A. Whitlock, Albert Hayes, C. W. Lowe, Henry Deyner, W. P. Kavanaugh, E. Patterson, A. G. Killam, James M. Smith, John Vasey Jr., H. H. Waldman, F. A. Ranson and John R. Allen. They were quartered last night at the Dunlap in charge of Deputy Sheriffs Kettering and Todd. Kirby, Wilson & Baldwin are representing Decker, Judge Barnes is appearing for Hale and State's Attorney Tilton is being assisted by T. F. Smith and Hugh Green.

Various Court Orders.  
Grand Avenue Bank of St. Louis vs. Earl and C. L. Gates, assumpsit. Suit dismissed as to common counts. Rule on defendant to plead by Friday next. Demurrer overruled. Motion for continuance overruled.

Broadway National Bank vs. Same, assumpsit. Demurrer overruled and rule on defendant to plead by Friday next.

Elizabeth Caywood, Admtr., vs. Receivers of Wabash, trespass on the case. Suit dismissed by plaintiff.

Ralph Shaw by Mary E. Shaw vs. Clifton Corrington, remanded from appellate court. Jury finds for plaintiff and fixes damages at \$500.

John W. Neal vs. F. G. Burch, case. Order sustaining demurrer and rule to plead set aside.

## MANAGER OF RED SOX VISITOR HERE

Jake Stahl, Who Piloted the Boston Americans to World Championship Honors, Visits Jacksonville.

Jake Stahl, manager of the Boston Americans, the team that won the world's baseball championship this year, is a visitor in Jacksonville. He came to the city in his new White steamer automobile, which was given him by the fans of Boston. He was accompanied by his wife and sister, Miss Mildred Stahl and also his mother, Mrs. Henry Stahl. They are staying at the home of Mr. and Mrs. G. M. Blair, 629 Hardin avenue. Mr. Stahl and Mrs. Blair being cousins.

Perhaps no man in baseball circles is better known than big Jake Stahl and his rise in that field has been phenomenal. In fact, Mr. Stahl did not have the least idea of making baseball a profession, having a mind rather bent toward law and graduated from the law department of the University of Illinois. Like all college men of his build, he loved athletics, and it was this love, which has brought him the success he has achieved.

Its an interesting story to learn just how Stahl came to be connected with the Boston Americans. In 1903 he was a catcher for the University of Illinois team and the nine from Chicago against Northwestern. Among the fans in the grand stand that day was the manager of the Boston team. Boston was playing in Washington when one of the catchers got his leg broken and they were in need of a man to fill his place. The spy was so pleased with Stahl's work that after the game was over he wanted to sign him up right away. Stahl said that it was impossible to go because he was just about to graduate from the university. Such an urgent demand was made that Stahl when he returned to Champaign went to see President Draper about the matter. The dean of the law school was also interviewed and Mr. Stahl was found to be so well up in his work that he was granted the privilege of leaving the institution three weeks before school was out and also of receiving his diploma.

For that season Stahl and Criger were the catchers for Boston. The next year (1904) Stahl played with the Washington Americans and was manager of the Washington team in 1905 and 1906. During the year 1907 Stahl laid off. Again in 1908 he joined the Boston nine and played that year, also 1909 and 1910. During the year 1911 Stahl was out of baseball and was engaged in business.

In 1912 the Boston team changed management. McAleer became president and Mr. Royer, secretary. Both men knew Stahl intimately and they asked him to join the company and become manager of the team. It was too good a proposition for Stahl to turn down so he accepted. The story of the team Stahl got together, is so well known to every lover of baseball. Under his management the Red Sox took the lead in the American league June 10 and maintained it till the close of the season, and proving their superiority on the diamond by winning the world's series from New York.

Mr. Stahl was a visitor at the Journal office last night and is a most affable gentleman to meet. In speaking of baseball, as a national past-time, he thought that the game was only in its infancy and that in the years to come it was destined for greater achievements. "Are there many college men playing baseball today?" was asked the big manager. "Yes, every year sees more college men in the baseball togs. The college is really a place where the first baseball lessons are taught in earnest and if a man proves efficient as a college player, there is always some big league scout, ready to pick him up, even before his college days are over. The greater part of my team is made up of college men, including Speaker and Wood, whose work attracted so much attention in the world's series."

"Another thing that is being culled out of baseball" said Stahl, "is the profligate. Players are beginning to see that if they are going to 'make good' they must abstain from those things which tear down health. The man who drinks knows that his baseball career, although he may be away up, will not last long if he continues to tilt the cup. As a rule the college player is in baseball, not only for the love of the game, but for the magnificent remuneration it brings. A good baseball player now-a-days can command as much salary as a lawyer or doctor."

"To what do you contribute the great strength of the Boston Americans," was asked. "Its the individuality of each man, and their team work," replied Stahl. "Every man entered the game with a determination to win and all worked together toward that end. Did you have any fears that the Red Sox would not carry off the world's series?" "Not in the least," was the reply, "although the New York Giants is a wonderful organization and it takes some playing to beat them." "Will you manage the Red Sox next season?" was asked. "Oh, yes, I shall have to be around the boys again. It looks like a big year in baseball circles in 1913."

Mr. Stahl lives in Chicago, but was born and reared in Elkhart, Ill. He is taking a little tour through the country in his automobile and expects to be back in Chicago by the first of December. He is vice-president of the Washington Park National bank and he is well known in business circles in Chicago. His sister, Mildred, attended the Woman's college in 1909 and 1910 and has a number of friends in Jacksonville.

Mr. Stahl keeps well informed in all sports. In speaking of the coming game of Illinois college against Lincoln he said that it would be a big game. He resides not far from

## NATIONAL FEDERATION DISCUSSES WORKMEN'S COMPENSATION LAWS

Model Act Provides That Next to Wages Due, an Injured Workman's Claim Must Be First.

New York, Nov. 25.—National legislation on workmen's compensation was discussed today at a largely attended meeting held under the auspices of the national civic federation. Commissioners on workmen's compensation from many states, delegates appointed by governors of states in which no commissions have been created, labor representatives, employers of labor and members of trade associations took part.

August Belmont, chairman of the civic federation's department on compensation for industrial accidents and their prevention, presided, and in his opening address outlined the civic federation model compensation act which provides that next to wages due, an injured workman's claim must be first.

United States Senator Sutherland of Utah spoke in favor of the federal act which is based on that of the civic federation, said that under the present law railroads of the country are paying out annually \$10,055,000 as compensation to workmen for injuries, but under the proposed law \$18,000,000 would be available.

Speeches were made by several other delegates.

In his instructions to the jury the judge directed that one of these verdicts be returned murder in the first degree, murder in the second degree or acquittal.

## DETECTIVES PATIENTLY AWAIT SUSPECTS APPEARANCE

Surrounded House in Which Man Resembling John Koetter Is Thought To Be.

Chicago, Nov. 25.—A house in West Monroe street tonight is surrounded by policemen following a report by a woman that a man resembling John B. Koetter wanted in connection with the murder of Miss Emma Kraft of Cincinnati by a hammer blow at a downtown hotel was seen entering the place. The information was shown a picture of the suspect and she said the features of the man in the house were the same. Detectives hurried to the house and, while some watched the rear others waited across the street for the entrance or departure of the suspect. That the would have to be content with watching from outside until some evidence was gained to warrant an entrance. Tomorrow morning the watchers will be relieved by another squad.

## ANOTHER WONDER OF SCIENCE

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf for the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

### BELIEVES HIGH STOCK PRICES WILL CONTINUE

J. T. Alexander Points Out That Supply of Cattle, Hogs and Sheep is Short—Cholera Has Caused \$12,000,000 Loss in Iowa.

John T. Alexander of Chicago so well known to many Jacksonville residents was in Lafayette, Ind., Saturday where he had been asked to place the value on the breeding cattle now being started by the University of Purdue for their experimental work. Mr. Alexander was also present at the fall meeting of the Indiana Cattle Feeders' association and made an address on the "Market Outlook of the Future."

Mr. Alexander is so well versed in livestock matters and the live stock conditions are so unusual now by comparison with other years that a statement from him is a matter of general interest.

In the course of his address he said:

**Hard to Find Feeding Stock.**

"I have been asked to address you on the market outlook for the future. Of course, there is always more or less guesswork in predicting the future markets. Very much depends on the supply and the demand. Usually when we have a tight supply and high prices for live stock one year or season we have an oversupply and low prices the following year, especially so when we have an abundance of feed and at much lower prices than the preceding year, and this year, with the largest corn crop we ever raised and with an abundance of all kinds of rough feed, with an increased number of silos in the country, all of which are well filled, we would naturally think there would be a very liberal supply of cattle, hogs and sheep fed, but the problem that is bothering the feeder this year is the scarcity of the material, and at prevailing high prices of feeders, scarcity of stock hogs and comparatively high prices for stock sheep it is a question, whether there is going to be a normal supply of live stock fed for the winter, spring and early summer markets. Some localities will feed more cattle, others less.

**Demand for Fleishy Feeders.**

"There has been a marked tendency the last two or three months to buy fleishy feeders and make a short feed, and already a great many of them have been marketed, and at a profit too. Feeders are still buying the heavy feeders for a short feed, and from the best information we can get from our many customers and in a general way, there is not the usual number of cattle going on feed for the late winter and spring markets, and we would certainly look for a very moderate or light supply of cattle from the range country next summer. As to the demand. It is good now and bids fair to continue good for some time to come for cattle, hogs and sheep.

"While the stocker and feeder movement has been heavy the last three months at Omaha and Kansas City, showing a liberal increase over the same time last year, this cannot be regarded as part of a visible winter or spring supply. Thousands of light steers have gone out to be roughed through the winter and are not liable to come back until next fall. Then, too, much female stock has been bought for breeding purposes, and the proportion of light steers has never been so large, so that figures are deceptive.

**Great Hog Loss in Iowa.**

"It is said Iowa produces one-fifth of all the hogs raised in the United States, and reliable information states that disease has ravished the state. A low estimate of mortality up to date is 1,000,000 head, and the money loss is estimated about

\$12,000,000, and more or less disease is reported in nearly every state, and bad in many of them, which certainly means a short supply of hogs for the winter and spring and high prices.

"The number of sheep going back into the country to feed lots shows a remarkable decrease from last year. For the last four months Omaha shows a decrease of 252,693. Chicago 200,153 and Kansas City 125,000, which certainly indicates moderate supplies and comparatively high prices.

"In conclusion, all I have to say is that the general situation looks very favorable for a continuation of high prices for cattle, hogs and sheep for some time to come, as far as the supply is concerned. Our American people are meat eaters. Packers are short, light stocks of beef in the coolers, and apparently they are buying all the canning and cutting cows they can get hold of in the United States."

### SERIOUS ERROR IN JACKSONVILLE.

Jacksonville Citizens Will Do Well to Profit by the Following.

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even to day in Jacksonville there are many residents making the serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order profit by this Jacksonville resident's experience.

Miss Mary Flynn, 820 Beechley avenue, Jacksonville, Ill., says: "Doan's Kidney Pills are a splendid remedy and act just as represented. I had sharp pains in the small of my back and also had backache which showed that my kidneys were unnatural. Since I used Doan's Kidney Pills, I have had none of these troubles."

For sale by all dealers. Price 50c Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

### CROSS ROADS SCHOOL.

A Temple of Learning in the Southeast Part of the County and Beautifully Situated.

"Come and visit our school and visit me too," was the cordial invitation from the Journal's esteemed friend, John D. Hembrough and such a bid was certainly agreeable to the scribe so Monday morning he turned the rudder of his ship in that direction and in due time landed at the little seat of wisdom and like the city referred to by the Blessed Master it cannot be hid for it is "set on a hill."

Cross Roads school house district No. 54 is unique in several respects. In the first place it has a conspicuous bell tower and a bell in it, regular church style and very imposing and is seen for quite a distance. In the next place it is admirably located on a hill with ample grounds well set in grass. A few more forest trees could be placed to advantage and the fence but otherwise there is an air of great prosperity about the place which is pleasing. The school house itself is as far as the writer is aware, unlike any other in the county and the design is patented and it showed that the directors are not afraid to spend a little money for the welfare of the rising generation.

The entrance is through a vestibule and on each side of it is a tiny room used on one side for library and on the other for brooms and whatever may be placed in it. In the rear end is a large bay window with clear glass and is at the west end. The windows on each side are three in number, rather high up, made of hammered glass and colored green. The teacher sits in the west end and the seats occupied by the pupils have their backs toward the large bay window and the teacher's desk. In front of the latter is a small space in which the classes are arranged for recitation.

The capable teacher is W. A. McPherson of Chapin and this is his second year with the school which shows he has given satisfaction. He was most courteous to his visitor and answered all questions. He said the light worked quite well except on quite cloudy days when it was hardly strong enough.

When the house was built the directors had placed in the basement a furnace but it failed to give good satisfaction and it was taken out and a modern floor heater put in its place, this works very well making good ventilation and heating the room equally all over. He spoke in high terms of praise of the directors who he said were ready to grant him all supplies and were always generous with him. The room is furnished admirably with working tools for education. Maps, charts and the like abound, there is a good library, part of it circulating, a dictionary and all else. A few pictures of eminent men would be about all the visitor felt was lacking and it is a pleasure to see a school plant so liberally managed.

The pupils paid good attention to what was said to them by the writer and were much interested in his description of foreign lands. They were very well mannered too and one of the boys hastened out to untie the visitor's horse which showed good raising. The writer was urged to come again and he will certainly be glad to do so.

The directors are:  
W. E. Reynolds,  
J. D. Hembrough,  
C. W. Watson.

Orography, reading, writing, mental arithmetic, written arithmetic, geography, grammar, U. S. history, physiology, agriculture.

Mr. and Mrs. H. B. Brady and C. N. Thompson have located at the Dunlap hotel until they can rent and furnish a residence.

### OFF FOR THE OZARKS.

Mr. and Mrs. D. K. McCarty expected to leave yesterday for the Ozarks and after a stay there to suit their tastes they mean to go to Florida and stay there a while and if pleased may remain all winter or they may go to California for a few months. They expect to be away till next spring or summer and then return to Illinois though just where they will live then they are not fully determined.

## DR. PRICE'S Cream Baking Powder

Has a dietetic value greatly beyond the conception of anyone who has not used it. It will make your food of a delicious taste, a moist and keeping quality, and a digestibility not to be obtained from other baking powders or leavening agents.

But more important than all else, Dr. Price's Baking Powder, being a pure, cream of tartar powder, carries only healthful qualities to the food—no alum, no lime phosphate.

It is noticeable that the advertisements of the low priced (10c., 15c., 20c., 25c. per pound) baking powders give no information as to ingredients. The fact that such powders are made from alum is stubbornly concealed, their proprietors going so far as to issue prohibitory contracts against exposure in the newspapers.

Is this because the alum people know that publicity would stop their business? Of course no prudent housekeeper would use an article of food in which she learned there had been concealed an unhealthy ingredient.

**Pure in the Making  
Sure in the Baking**

**CALUMET BAKING POWDER**

Just an ordinary knowledge of baking requirements on your part is all that is necessary to produce perfect bakings with Calumet Baking Powder. Calumet by its purity and perfect leavening qualities does the rest.

Leave your next baking to Calumet and note the improvements—also note the saving—for Calumet is economical in cost and use. All good grocers sell it.

## Over Night Relief For Constipation

A Small Dose on Retiridg and You are Well and Happy by Morning.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as constipation is many people do not seem to know they have it. They will complain of headache, drowsiness or biliousness, all unconscious of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day you are constipated, and the result will be that you will catch a cold easily or have a more serious ailment. To cure the constipation and forestall still graver trouble take a dose of Dr. Caldwell's Syrup Pepsin at night before retiring and by morning relief will come, without disturbance from sleep or any inconvenience.

Legions of people use it regularly in such emergencies, some of them formerly chronic invalids who have suffered from constipation all their lives. Mrs. Elizabeth Terrill, Lamar Ind., and Mr. Alonzo Collins, Geneseo, Ill., and many others will tell you that they have tried most things recommended for this purpose but have found Syrup Pepsin the only one always reliable. A bottle can be obtained at any drug store for fifty cents or one dollar, the latter size being bought by families already familiar with its merits.

Mrs. Elizabeth Terrill.

Syrup Pepsin is mild, pleasant-tasting and non-gripping. Mothers give it to tiny infants, and yet it is effective in grownups. It is for everyone who suffers from any form of stomach, liver or bowel trouble, constipation, dyspepsia, biliousness, etc. Its action will so delight you you will forever avoid harsh cathartics, purgatives, pills and salts. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill., and a free sample bottle will be mailed you. Results are always guaranteed or money will be refunded.

## S.S.S. CURES CHRONIC CATARRH

When we say S. S. S. cures chronic Catarrh we do not mean that it merely checks the symptoms for a time. Some local applications will do that by simply cleansing and soothing the irritated mucous membranes. But all the while the cause which produces Catarrh is left in the system, and as soon as the local treatment is left off, the trouble returns with all its annoying symptoms. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter and at the same time building up the system by its unequalled tonic effects. It goes into the circulation and attacks the disease at its root, and removes every trace of impurity that is causing the trouble. Under the purifying effects of S. S. S., the inflamed membranes are healed by rich, pure blood which is carried to these parts, the offensive discharge from the nose ceases and severe headaches and neuralgic pains are no longer felt. In fact every symptom of Catarrh disappears, the stomach is toned up and the disease is thoroughly cured. Thousands of chronic cases of Catarrh of the most stubborn character have been completely cured by the use of S. S. S. The inflammation which produces chronic Catarrh can never be permanently relieved until the cause has been removed from the blood. This S. S. S. will do, and then nature hastens the return of perfect health. Book on Catarrh and any medical advice free to all.

A FINE MACHINE.

D. M. Howe, proprietor of the Grand Laundry has just installed a "Prosperity Moulder," a machine for shaping linen collars after they have been ironed. The machine is expensive and very few laundries outside of large cities have them. The machine will save wear on linen and add to the satisfactory work done at the Grand.

They Make You Feel Good.

The pleasant purgative effect produced by Chamberlain's Tablets and the healthy condition of body and mind which they create make one feel joyful. For sale by all dealers.

## THE HOODED COBRA.

Its Peculiar Transformation When Excited or Irritated.

The cobra, or cobra de capello, to give its full title, also known as the hooded or spectacle snake, is not only one of the most venomous of the serpent family, but one of the most numerous, and the world over has less than half a dozen rivals, the most prominent of which are the asp, the cobra, the fer de lance of the Caribbean archipelago, the tic palounga, or cobra mouli of Ceylon; the West Indian trigonocephalus and the tiger snake of Australia and Tasmania.

When at rest the neck of the cobra is not of greater diameter than the head, but when confronting an enemy or excited by passion and irritation it raises the front half (or a little more) of the body vertically from the ground, drawing the posterior portion into a coil, until it forms, as it were, a sort of spiral spring. By means of this, aided by an extraordinary muscular power and the elasticity of its frame, it is enabled to launch itself forward with lightning-like rapidity and even leap, if necessary, to some distance.

While thus erect it holds itself as rigidly as an iron bar, and the neck at once begins to swell to prodigious size, forming the peculiar protuberance that is known as the "hood" and exhibiting markedly two connecting spots of white, to which it owes its title of "spectacle snake." This "hooded" appearance is due to the loose and flexible character of the first nine pairs of ribs, which, by a peculiar action of the muscles, draw forward and spread out the ribs.

LAZY MEN OF CHAMPERY.

Why the Women of That Primitive District Wear Trousers.

The women of Champery, a primitive mountain district of the Canton of Valais, in Switzerland, have worn trousers from time immemorial.

It further appears that the men of this district are noted for their indolent habits and that, beyond acting as guides to mountain climbers in the summer months, they lead practically idle lives. It follows that the women perform all the hard labor required of a mountain people. It is the women who pasture the cattle on the steep and often dangerous Alpine slopes, cut the timber and mow the grass. It is no uncommon sight to observe a Champery woman at the conclusion of her daily toil returning to the village dragging her husband on the wooden sleigh that is in common use throughout Switzerland.

In view of the above it is not surprising that the women of Champery should have adopted the masculine attire. Their dress is of the simplest kind, a jerkin of rough, dark blue material, with trousers to match, and a red handkerchief to protect the head.

Inasmuch as the wives and mothers of Champery perform the greater part of the toll usually deemed the duty of the stronger sex, it is not astonishing to learn that they affect certain masculine habits, the chief of which is the pipe. The Champery woman puffs away with considerable enjoyment at a short brier as she proceeds with her labors.—Harper's.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley's Kidney pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. City Drug store, J. A. Obermeyer.

We're Going Some Nowadays.

In 1800 no woman could make a will, could enter college, any industry, trade or profession outside the home. Women were not the legal parents of children. In 1848, due to the agitation of women suffragists, married women were permitted to control their property. In 1867 New York state permitted women to make wills.

A Woman's Prayer.

God, thou Creator of my woman's soul, Grant me an answer to my heart's prayer.

For ages men have taken ruthless toll From bonded womanhood, and we have clung in silence to a slavish part. Nor dared refuse the toll lest love depart.

God, give us power to save the little child From grinding toil and politicians' greed; To clasp the hand of maids by just deed.

And be their refuge in the hour of need, Give us the right to take an active part In fellow service and to prove our worth. Enfold us, God, within thy mother heart, That peace may reign upon a love-crowned earth.

## Woman's World

Miss Pugh, First of Sex to Defend Murderer.

MISS LUCILLE PUGH.

Portia has been reincarnated! At least that is what all good theosophists would say. This time the fair Portia is not a tall, commanding dame, as pictured in combat with the grizzled old Shylock. Oh, no; she is quite the opposite—a petite and lovable little maid, five feet tall and tipping the scales at a trifle over 100 pounds. But she is all there, and, despite her diminutive stature, no other woman lawyer in the world, excepting the original Portia, of course, has ever been so much talked about as Miss Lucille Pugh, the first of her sex to defend a man accused of murder, and a negro at that.

"Did she win?" gasps some breathless feminine interrogator. To be sure she did, and, what is more, she made every one in the legal profession the world over sit up and take notice.

When Miss Pugh was assigned by Judge Swann of the New York general sessions court to the defense of Leroy Poindexter it will be recalled that she compelled a disagreement by the jury in the first trial and made so strong a presentation of her case in the second trial, after thirty-three hours of deliberation, a verdict of guilty of manslaughter in the second degree—a comparatively minor offense—was rendered. But the indefatigable counsel for the defense, dissatisfied even with this flattering result of her efforts, is seeking now a third trial in the firm belief that Poindexter will be eventually acquitted.

As a matter of fact, few better examples for the equality of the sexes can be found than in Miss Pugh's achievements, a southern woman, whose birthplace is Hamilton, N. C. But what would a southern woman of the olden days think of one of her sex and race standing up in defense of a man accused of murder, and a negro at that?

With a modesty that is real Miss Pugh hides even from her friends her long struggle along the road to success. Opposed by her family and friends, discouraged by the failure of others of her sex in the difficult requirements of the law course in New York university, Miss Pugh was upon one occasion almost at the point of abandoning her efforts to secure admission to the bar and accepting an offered position as reporter for a cosmopolitan newspaper. But with unwavering fidelity to a plan of action, once carefully outlined, she persevered, though six members of her class left the ranks.

During business hours Miss Pugh always wears a tailored skirt and a coat and waistcoat of mannish cut, with the conventional collar and tie. And there is excellent reason for this attire, as the convenient pockets are invariably filled with legal documents, notebooks and all the necessary legal paraphernalia. Nor does Miss Pugh appear at all masculine in her trig business suit; she is too essentially feminine for that. In fact, the mannish cut of the costume seems to suit her style exactly.

# GOLD DUST ONE DAY IN PARIS

removes grease quickly  
from pots and pans

Cleaning the pots and pans and kettles is usually a most disagreeable piece of work, but like everything else there is an easier way to do it, if one knows how.

As soon as the food is removed, pour in water and dissolve in it Gold Dust in the proportion of one tablespoonful to a gallon of water.

Leave to soak while washing the dishes, then pour off the water and fill with clean suds made in the same way. If particles of food still adhere to the inside of the utensils, use pottrags for removing them.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

## CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age.  
How It May Be Passed in Safety.

Odd, Va.:—"I am enjoying better health than I have for 20 years, and I believe I can safely say now that I am a well woman. I was reared on a farm and had all kinds of heavy work to do which caused the troubles that came on me later. For five years during the Change of Life I was not able to lift a pail of water. I had hemorrhages which would last for weeks and I was not able to sit up in bed. I suffered a great deal with my back and was so nervous I could scarcely sleep at night, and I did not do any housework for three years."

"Now I can do as much work as any woman of my age in the county, thanks to the benefit I have received from Lydia E. Pinkham's Vegetable Compound. I recommend your remedies to all suffering women."—Mrs. MARTHA L. HOLLOWAY, Odd, Va.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills.

An Experience During the Riotous Times of the Commune.

## DEATH STALKED THE ROADS.

An Unhappily Proportioned Bearing Banners of Peace and Good Will Was Mowed Down by Cannon Planted in the Streets—A Woman's Adventure.

In Harper's Mine, de Hegemann-Lindencrone tells of her experiences in Paris during the commune. One day's adventures are typical. On March 20, 1871, she writes:

"Today there was a great demonstration in the streets. A young fellow named Henri de Pene thought if he could collect enough people to follow him he would lead them to the barricades in the Place Vendôme in order to beg the communards in the name of le peuple to restore order and quiet in the city. He sent word beforehand that they would come there unarmed."

"I happened to go at 1 o'clock to Worth's, in the Rue de la Paix, and, finding the street barred, I left my coupe in the Rue des Petit Champs, telling Louis (my coachman) to wait for me in the Rue St. Arnaud (just behind the Rue de la Paix), and I walked to No. 7."

"I wondered why there were so few people in the street. The Place Vendôme was barricaded with paving stones, and cannons were pointing down the Rue de la Paix. I walked quietly along to Worth's, and hardly had I reached his salon than we heard distant, confused sounds, and then the shouting in the street below made us all rush to the windows."

"What a sight met our eyes! This handsome young fellow De Pene, his hat in his outstretched hand, followed by a crowd of men, women and children, looked the picture of life, health and enthusiasm."

"The crowd bore banners on which were written 'Les Amis du Peuple,' 'Amis de l'Ordre,' 'Pour la Paix' and one with 'Nous ne sommes pas armes.' 'One can't imagine the horror we felt when we heard the roar of a cannon and looking down saw the street filled with smoke and frightened screams and terrified groans reached our ears. Some one dragged me inside the window and shut it down to drown the horrible noise outside. De Pene was the first who was killed. The street was filled with dead and wounded."

"I felt terribly agitated and, moreover, deathly sick. My one thought was to reach my carriage and get home as quickly as possible. But how was I to accomplish it? The Rue de la Paix was, of course, impossible. Worth had a courtyard, but no outlet into the Rue St. Arnaud. He suggested that I should go through his attelers, which he had at the top of the house, and reach an adjoining apartment, from which I might descend to the Rue St. Arnaud, where I would find my carriage. He told one of his women to lead the way, and I followed."

"We toiled up many flights of wearisome steps until we arrived at the above mentioned attelers. These communicated with another apartment, of which Worth's woman had the key. On her opening the door we found ourselves in a small bedroom (not in the tidiest condition), seeming to have just been occupied. We passed through this room and came out to a staircase, where the demoiselle said, 'You have only to go down here.' 'When at last I came to the porte-cochere I found it closed and locked, and the frightened concierge would not open for me. Fortunately I had a gold piece to make her yield to my demand. She reluctantly unfurnished the door, and I went out. The street was filled with a terrified mob, howling and flying in every direction. I caught a glimpse of the carriage away up the street, and I saw a hand gesticulating above the heads of the crowd, which I recognized as Louis'. It was the only one with a glove on."

"I pushed my way through the mass of people, saying very politely 'Pardon' as I pushed and very politely 'Merci' after I had passed. 'My horse had been unharnessed, and a man was trying to lead him away in spite of Louis' remonstrances. 'The man holding the bridle opposite to Louis seemed a most formidable person to me. Still I tried to smile with placid calmness, and, though I was shaking all over, said, 'Pardon, monsieur, will you permit me to have my carriage harnessed?' I think he was completely taken off his guard, for with the intuitive gallantry of a Frenchman, he answered most amiably, throwing back his coat and showing me his badge, 'I am the agent of the salut publique, and it is for the government that I take your horse.' 'I made him observe that it would be very difficult for me to walk to my home in the Rue de Courcelles and if his government wanted the horse it could come there and fetch it. He looked doubtfully at me as if weighing the situation, then said, very courteously, 'I understand, madame, and give you back your horse,' and he even helped Louis to reharness the horse, who seemed happy to return to his shafts."

"When I arrived home I had to go to bed, I was so exhausted. My W. administered the infallible camomile tea, her remedy for every ill. She cannot conceive of any disease which is not cured by camomile tea unless in extreme, when fleurs d'orange takes its place."

## RELIGIOUS JOLLIFICATION.

### Y. M. C. A. Senior Class Has Good Meeting.

The Young Men's Bible class of the Y. M. C. A. held a religious jollification meeting Monday evening in the association rooms, celebrating the beginning of their winter's study of the old testament as outlined some days ago in these columns.

At 6:15 p. m. twenty-five men gathered around the plentiful supper provided for them by the ladies of the Westminster Presbyterian church and after doing full justice thereto, were given two selections, "Walking With God" and "That Beautiful Land," sung by the male quartet of the Central Christian church. Y. P. S. C. E., consisting of J. Philip Read, Everett Weeks, Lewis M. Osborne and E. M. Johnston.

After some routine business was attended to, the new members of the class were introduced to the others present, and were welcomed by the class president, L. M. Osborne.

Following this, the class listened to a vigorous speech from Rev. J. W. Miller, one of the teachers of the class during the coming season. Rev. Mr. Miller exhorted the young men to study faithfully the lessons and characters presented to them, and to study them as men and not as creatures of environment. Dr. Miller's exhortation was heartily approved of by the young men, and the class feels that in him and in Rev. Mr. Dorgan they will indeed have good guides in their study of the Bible.

The meeting was closed by a song service in which all earnestly joined and then adjourned to meet Monday evening, Dec. 2, for the first lesson of the series.

Those present were Lewis M. Osborne, Fred Darr, Arthur Updegraff, Talmage Crum, Harry Frye, Ellis Spray, Charles Kins, Howard DePew, Verne Johnson, Thomas E. Yates, O. S. Raynor, Leonard Acre, Roy Hopper, Everett Weeks, Everett Long, Layton McGhee, H. Jay Rodgers, Verner Wilson, J. Ray Woods, J. Philip Read, E. M. Johnston, H. A. Brewer, J. R. Watt, Rev. J. W. Miller and Rev. W. L. Dorgan.

## QUICK RELIEF FOR RHEUMATISM.

George W. Koons, Lawton, Mich., says: "Dr. Deitchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist, house.

Miss Eola Passa of Waverly was shopping in the city Monday.

## A FINE MONTH.

Compared with last year we have had an especially fine November. Mathis, Kamm & Shibe keep a small diary of the weather and referring to it yesterday Mr. Mathis found that the severe storm which devastated Virginia took place the 11th; there was snow to a greater or less extent the 14th and 18th; more on the 19th, rain followed by snow the 27th and Sunday, the 28th it snowed slightly all day. A few more weeks of the present kind of weather will be very acceptable to the men who have corn to husk.

Mrs. Fannie King of Indianapolis was among the business visitors in the city Monday and left over the Weabash for Springfield where she will visit her sister, Mrs. J. W. Strong.

### Accepting Obligations.

Many a life is spoiled by false pride. A "sponge" is not admirable, but far more women err on the other side and cannot accept a favor graciously.

A woman of wealth and influence was taken to task for her kindnesses to a daughter of a school friend, while apparently neglecting the daughter of her sister, a girl of the same age. She replied:

"My niece is too independent. She makes me feel patronizing sometimes, again acts as if the kindness I offered was insignificant and she does me a favor by accepting it. Nancy is big natured enough to accept obligations graciously and always shows her appreciation."

That is the secret of many a girl's good times—taking a favor graciously and being grateful for it.

There are some persons from whom we could take nothing. To do so means too great loss of self respect. Usually such donors are but near friends. The true friend, if she is in the least tactful, will not make her kindnesses a burden, and the right kind of a girl will accept them in the kindly spirit in which they are offered.

The girl whom it is a real joy to befriend does not expostulate or gush. She looks and acts her appreciation rather than speaks it. Her thanks are heartfelt, but simple. She does not protest. "Oh, I can never take that from you," meaning to all the time, nor does she ever hint that the kindness might put her under obligations that she would feel irksome. This attitude at once destroys the pleasure of the giver.

The girl you like to befriend never makes the fatal blunder of indifference. She is too clever not to realize that no benefactor enjoys the feeling that her thoughtfulness doesn't "cut much ice."

But the truly clever girl, she who is apparently showered with attentions, always shows her gratitude, though she may talk comparatively little of it. She realizes that nothing she may do can repay the favors received, but she makes the effort. Unobtrusively, perhaps very simply, she becomes the bestower of kindnesses. It may be only by taking upon herself the duty her benefactor finds irksome, or she may make her unexpected little gifts, inexpensive trifles, things she has worked herself, but trifles that stand for appreciation and gratitude.

And be sure this appreciation will be appreciated. No one does a kindness hoping for returns, but no one likes such kindness to be taken too casually. The girl who grabs at all that comes her way, taking it as a right rather than a favor, soon has nothing to grab at. The most generous spirit resents being worked.

### A Church Wedding.

If a bride elect has selected a church for the setting of the ceremony she should insist on punctuality. She and her attendants should arrive exactly on the hour mentioned in her invitations or a few minutes before.

The mother and any sisters and brothers of the bride arrive a little before the bride, and the mother, on the arm of the head usher, walks to her seat, the first pew on the left at the head of the center aisle.

On the arrival of the bride, her father and attendants the center aisle is cleared by the ushers, and news is sent to the groom and the organist.

As the wedding march peals out the ushers advance toward the chancel.

Then the bridesmaids, two and two, walk up the aisle. The maid or matron of honor immediately precedes the bride, who is leaning on the arm of her father or her nearest male relative.

The ushers divide into two groups and pass to the side of the chancel. The bridesmaids do the same.

The bride is met by the groom at the head of the aisle and removes her hand from her father's arm, taking that of the groom. She is led to a place in front of the clergyman, her maid of honor standing at her left and her father standing behind her until the moment of giving her away. After he has done this he steps to the pew on the left beside his wife.

The bride hands her bouquet to her maid of honor as the moment for giving away arrives. After the ceremony the bride turns and places her left hand on the arm of her husband. The pair move down the aisle, followed by the maid of honor and the best man and then the bridesmaids with the ushers. They enter the carriages waiting for them and drive to the bride's home.

The parents of the bride follow immediately, and after the entire bridal party and special guests have passed out the other guests leave. Music is played until the church is empty.

When the bride has no attendants her father remains at her side during the entire ceremony. If a mother gives a bride away the bride walks up the aisle on the arm of a brother or quite alone. When the clergyman asks who gives her away the mother rises in her pew, bows or says, "I do," and reseats herself.

These are the important points in a church wedding. The personal taste and ideas of the bride may change them somewhat, but the general idea remains the same.

## GENERAL MARKET NEWS

### WAR RUMORS SWAY MARKET

Wheat Fluctuates According to the Latest Reports as to Probable Outcome in Balkans.

(By Associated Press.)

Chicago, Nov. 25.—Excited upturns in wheat quotations today on account of unconfirmed war rumors brought about heavy sales presumed to be for leading holders. The market closed nervous at an advance of  $\frac{1}{8}$ ¢ to  $\frac{1}{4}$ ¢ net. In corn the outcome varied from  $\frac{1}{4}$ ¢ lower to a shade up, oats finished a sixteenth off to a gain of 18¢ and provisions irregular strong out from a slight decline to a rise of 12¢.

Notwithstanding that the principal owners of wheat here were active in selling on bulges speculative longs increased in number and courage. Ordinary influences were for the most part ignored and the market swayed upward or back according to the latest talk in regard to probable closing of the Dardanelles or concerning an alleged armistice that would stop hostilities a week.

Absence of foreign demand for shipments from the United States proved to chief handicap for the bulls.

May wheat fluctuated between 90¢ to 91¢, with last sales  $\frac{1}{4}$ ¢ net higher at 91¢.

Rural selling of December delivery weighed on the corn market as a whole. Strength borrowed from wheat faded away. Price changes in May reached from 48 to 48½¢. The close was easy, shade up at 48½¢.

Smallness of primary arrivals had a sustaining effect on oats outside limits touched by May were 32½¢ to 32¢, with the close at 32½¢, a net gain of a shade.

Provisions developed steadiness owing to chances for greater export call. The best advance was in May pork, 12½¢.

### NEW YORK STOCKS.

New York, Nov. 25.—A twelve per cent rate for call money, the highest since January 5, 1912, caused some unsettlement in stocks today.

The advance was ascribed to a variety of causes, including the world-wide tightening of monetary conditions, the Balkan war and the strain upon domestic reserves. Some local banks called loans, but this move was not general. The high rate yielded slightly, when one of the most prominent institutions offered several millions at six per cent in exchange with its fixed policy, but when this supply was exhausted the quotation mounted again to the high figure. Before the close the rate again declined. Last week's bank statement disclosed an excess of loans over deposits of almost \$200,000,000, and this fact was taken into account in today's flurry.

The failure of American bankers to bid for any part of the South African gold received in London today is thought to be the result of an understanding between local financiers and their European confederates. London selling in this market was another factor which contributed to the depression of stocks. It was estimated that London sold 25,000 to 30,000 shares here and that 7,000 shares were sold on direct cable from the continent. The award of the arbitration board to the eastern railway engineers was re-affecting in the stock market, railroad shares being depressed in the early part of the day to a more marked extent than the industrials.

Later in the session, when the flurry in money rates induced some liquidation the whole list sold off, and prices fell from one to three points below Saturday's close.

## AUTO COLLIDED

WITH STREET CAR

Mrs. R. H. Duer of Springfield Injured in South Main Street Accident Sunday Night—Auto Badly Wrecked.

Sunday evening about eight o'clock Mr. and Mrs. R. H. Duer of Springfield were driving an auto to the city having returned from Chambersburg and Mercedosia. They were accompanied by W. A. Masters of Pisgah and Miss Margaret Curtis and were driving east on Edmond street, west of South Main street intending to turn south when they reached South Main. There they collided with a street car. Mrs. Duer was thrown through the windshield and severely cut and the automobile was badly wrecked.

As they attempted to turn into South Main street a street car was coming northward and Mr. Masters says it was going at a high rate of speed and not ringing any alarm or sounding a gong. Fortunately the auto was going very slowly and Mr. Duer did all he could to stop it and in an instant the street car struck the auto, smashing the front right wheel and springs badly, damaging the left wheel considerably, breaking the windshield and doing some other damage notably to the front axle, which was considerably bent.

Mr. Duer held to the steering wheel and wasn't hurt but Mrs. Duer was thrown forward and striking her head was bruised and cut considerably though not dangerously. Mr. Masters and Miss Curtis were not hurt at all. The car and the auto were locked together and several persons in the immediate vicinity hastened to the scene and by lifting and tugging managed to get the vehicles apart and the street car proceeded on its way and the auto was hauled to Estaque's garage for repairs.

Dr. Weirich was summoned for Mrs. Duer who was taken into the home of Mr. and Mrs. W. S. Ehnie and her wounds were properly dressed and she will soon be able to proceed to her home in Springfield. From the Ehnie home she was taken to the home of her sister, Mrs. Mathews on Clay avenue. The accident was unfortunate as Mrs. Duer's car was nearly new having been used but a few months. Mr. Duer is a careful driver of a car to which fact the members of the party owe their escape from more serious trouble.

## A DETECTIVE STORY.

One They Tell in London on Two American Police Officials.

As an illustration of the good nature of Frank Froest, who used to be chief of Scotland Yard, they tell this story in London:

Many years ago two American detectives chanced to be in London together, awaiting the extradition of criminals who had been arrested in England for offenses committed in the United States. The Hotel Victoria was then American headquarters in London, and one evening the two Hawksnaws, who had had a convivial day, fell asleep side by side on a divan in the big smoking room of the hostelry. An American humorist found a pair of handcuffs in the office of the manager of the hotel and proceeded to shackle the pair together, when for two or three hours they slumbered peacefully while the guests of the hotel, American and English, including the ladies, came to gaze upon the scene.

When the detectives finally awakened about 1 o'clock in the morning it was impossible to find a key to the handcuffs and hence impossible to liberate them. They would not bear of sending to a police station for assistance lest the story of their ridiculous plight get out, but they had confidence that Froest, who was then a plain detective inspector, would not betray them. A messenger to Scotland Yard, near by, learned that Froest had gone home long before, but got his address several miles away in the suburbs. An American newspaper man who knew Froest reached his home by cab after 2 o'clock in the morning. He was awakened from slumber and without protest came all the way to the Victoria and released his fellow craftsmen.—New York Sun.

## RAZORS IN CHINA.

They Cost Little, but They Are Made From Old Iron Horseshoes.

An interesting feature of Chinese industry is the making of knives and razors from old horseshoes. The local blacksmiths in the interior cities and towns supply the great population of the empire with knives, razors and scissors of an inferior quality at a very small cost. This cutlery comes from small shops, where only one or two men are employed, usually the proprietor and his sons, and is chiefly made from old horseshoes imported from England and the continent. A discarded steel shoe offers the best material for blades, but the blacksmiths prefer the old shoes of soft iron that come from Glasgow and Hamburg.

One British firm at Tientsin brought over a cargo of old horseshoes from Australia recently, but could not dispose of them, as the native smiths said that the iron was too hard. They like the soft iron because it can be more easily worked by their primitive methods.

A razor commonly used by the poorer class, having a cutting edge of less than two inches, costs 20 tung-tzus, about 9 cents in American currency. Upon the strop the blade takes a fair cutting edge, but is too soft to hold it. Any number of stroppings are necessary before the act of shaving can be completed. After the blades are forged they are simply case hardened and not subjected to the careful tempering employed in the production of western cutlery.—Youth's Companion.

## The Greek Symposium.

The Greek symposium was literally "drinking together," but before the drinking fully began there was a banquet, more or less elaborate, as the wealth and taste of the host might dictate. The guests came in their best. Even old Socrates, Plato tells us in his "Dialogue" on the subject, was not above taking a little extra palus when he was invited out. Some one met him one day in the market place, "fresh from the bath and sandaled," and as the sight of the sandals was unusual he asked him whether he was going that he was so fine. "To a banquet at Agathon's," he replied, "and I have put on my finery because he is a fine creature. What say you to going with me unbidden?"

## A Joke on His Clerical Brother.

Two brothers named Chalmers, one a minister and the other a physician, lived together in a western town. One day a man called at the house and asked for Mr. Chalmers. The physician, who answered the door, replied: "I am he."

"You've changed considerably since I last heard you preach," said the man, who appeared greatly astonished.

"Oh, it's my brother you want to see; he preaches and I practice."—Kansas City Star.

## For the Children

Sailor, the Famous Dog Collector of Money For Orphans.

© by American Press Association.

There died recently at Southampton, England, a dog known to many transatlantic travelers. Those young folks who have crossed the ocean on liners landing at Southampton in recent years must surely have seen him and if so will recognize his portrait. This dog was a Newfoundland, and his name was very appropriately Sailor. With his collecting box strapped across his shoulders Sailor used to watch the coming and going of all steamers at Southampton. His mute appeal for funds to aid the Seamen's orphanage was very effective, and during his career he collected nearly \$2,500 for that institution. Sailor was eight years old when death ended his life of usefulness.

## Game of Minerals.

You older boys and girls will enjoy playing the following game. It is called the game of minerals:

Prepare beforehand a sheet of paper for every player with ten questions written on it and a space left after each one for the answer.

1. The ten questions are:
1. Which mineral has always had the greatest value?
2. Which mineral is the most useful to mankind?
3. What mineral was a vegetable previous to its present form?
4. What mineral is necessary to our existence?
5. What, in our pencils, is erroneously called "lead"?
6. The possession of what mineral is supposed to bring ill luck to the owner?
7. What mineral having a liquid form is often found in the vicinity of coal beds?
8. What mineral received the name of a mythological deity?
9. What minerals enter into the composition of United States coins?

The answers are:

1. Gold.
2. Iron.
3. Coal.
4. Salt.
5. Graphite.
6. Opal.
7. Petroleum.
8. Mercury.
9. Gold, silver, nickel, copper.

## Columbus and the Egg.

The true story of Columbus and the egg is like this: After Columbus returned from his perilous voyage many of the courtiers, who were jealous of him, taunted him with the words, "Anybody could have done what you did just by sailing steadily westward."

"To be sure," said the navigator, "but I'll show you something you can't do." Calling for an egg, he asked them to make it stand steady on its smallest end. They all tried in vain. Then Columbus took a knife and with a stroke flattened the end so that the egg stood firmly on the table.

"Oh," cried the courtiers, "we did not know you meant to do it that way! That's easy."

"Anything is easy if you know how," answered Columbus; "so it is with the discovery of the new world."—Philadelphia Ledger.

## Conundrums.

Have you heard the story about the egg and the coffee? No! Well, that settles it.

When did the lobster blush? When he saw the salad dressing.—Philadelphia Ledger.

## The Dream Ship.

Sister and I have the grandest time at night when we go to bed. We keep as quiet as can be. So never a word is said. But we play that our bed is a beautiful boat.

And we sail to foreign shores. Our ship is the finest vessel afloat. With never a need of oars. We visit strange lands, and we see strange sights.

Where kings and queens all dwell. And they wear the loveliest clothes of gold.

And wonderful tales they tell. Then we eat from dishes diamond bright. That fairy hands set out.

But back to our homes we swiftly sail. When we turn our head about. And make for the spot where Dreamland lies.

With its many more wonders in store. And this is the place where we stop the ship.

To land on that beautiful shore.—Philadelphia Record.

## A FINE HOME

Residence of John Hembrough Well Worth Seeing—Many Conveniences and Advantages About the Place.

As the name of Henderson predominates in the vicinity of Arcadia and Wright and Seymour in and near Franklin so does the name of Hembrough stand ahead of all others in the vicinity of Asbury church and no name is more honored in the county.

In response to a courteous invitation the writer had the pleasure of a visit with Mr. Hembrough and his excellent family Monday and it was indeed interesting and instructive as well. Of course there are other fine farms and plants in the county but not many come up to that of Mr. Hembrough in all respects. He manages to get along with a little patch of 270 acres and makes it count at the same time. Mr. Hembrough has quite an architectural mind and if he saw fit to go into the business of farm architecture it is safe to say he would succeed if people had a desire for first class work in that line.

The house first claimed attention and it was pleasing to see how well it is situated, on a slight knoll with enough fall in all directions to drain the premises well. Trees of ample size surround it and most of these were set out by the owner who knows the value of good shade and plenty of it.

Inside, the house is a pattern of economy in the way of utilizing all the room while comfort and even luxury abound. The basement is concreted all over; a part is devoted to the heating apparatus and another part, partitioned off so as not to be too warm, is given up to the usual uses of a cellar.

Up stairs everything is neat, commodious, convenient and attractive. The stairways are wide and easy, the rooms conveniently located and the whole is heated with a hot water system which is simply perfection. Evergreen trees make a wind break about the orchard and the premises have a large grass plot which is attractive. The lay of the land is in all cases sloping so that as little mud is encountered as possible in the muddy season.

It was the building which especially attracted the attention of the visitor. A commodious barn supplies shelter for a good number of horses and their feed while a shed for a large implement shed for Mr. Hembrough says he can't afford to leave any of his implements out in the weather and even his manure spreader is housed when not in use. He says it may do for a man with a right large income to be so extravagant as to leave his plows, harrows, cultivators and anything else used on the farm to the mercy of the elements but he isn't rich enough to do it wisely.

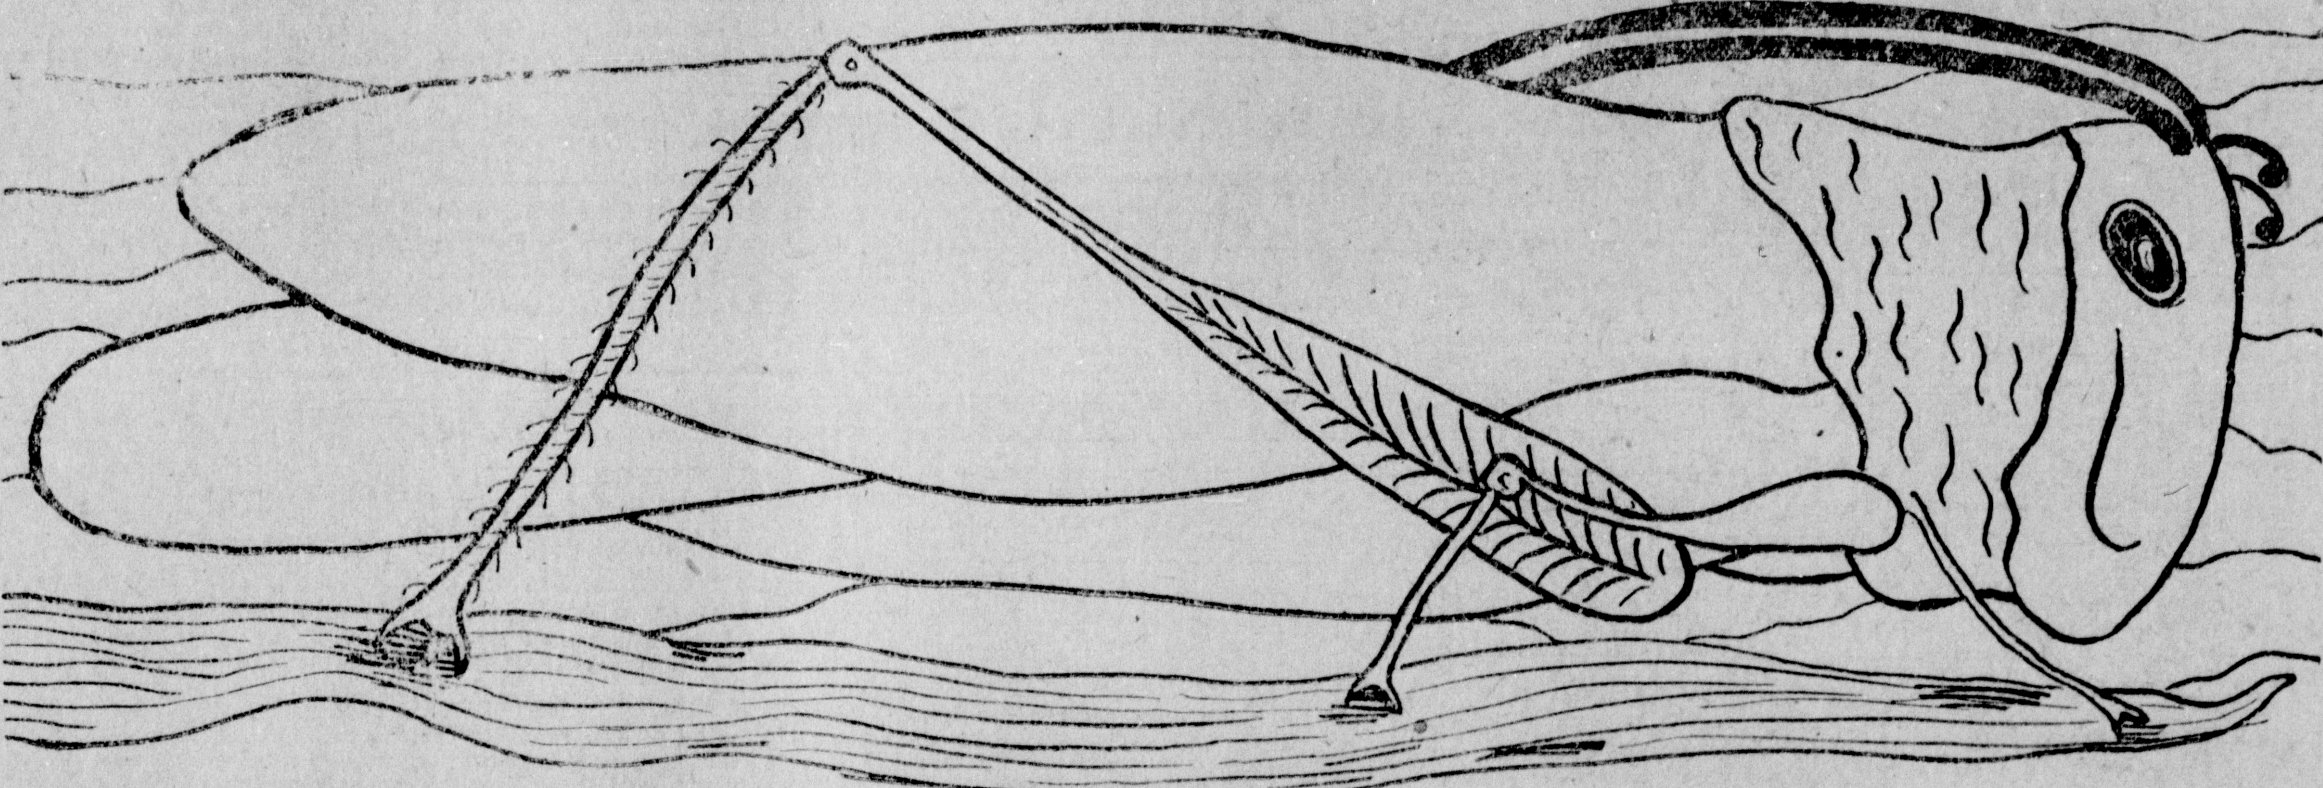

He feeds a good many cattle and for that purpose has three commodious lots with big fences made of stout oak plank and safe and secure from all but the most breachy stock. He has sheds for his hogs and various small buildings for different purposes and lots well graded with little mud. One he uses for keeping seed corn of which he sold 300 bushels last spring and anyone buying that article of him needs no more of a guarantee than his word.

What impressed the visitor the most was the admirable feed barn or shed if one prefers to call it that. Mr. Hembrough goes on the principle that lumber is cheaper than corn, hay and other feed and so he manages to house his stock when it is stormy and keeps them fattening, while those without shelter barely hold their own with the best of feed.

The structure is eighty feet long and almost as wide and is substantially built. In the center is a driveway and above a hay loft capable of holding 175 tons of baled hay. A power fork raises it and places it where it is wanted. On each side of the driveway are commodious cribs well ventilated and capable of storing 10,000 bushels of ear corn. On the extreme sides of the building are the cattle sheds each capable of holding a large number of animals while in front of them are the feed racks and troughs. The racks are connected with the hay loft so that the contents can be deposited easily for 100 cattle.

Ample feed troughs are placed

along the side under the hay racks and connecting with the corn cribs with small doors at convenient distance apart and so arranged that a man may come along and raising a lid let flow a fine golden stream of the grain that is called king. Cotton seed meal and wheat oats are mixed with the rations of the cattle and on this ration they thrive quite well. In the winter a man can feed a hundred cattle in a little while. From the mow above he can toss the hay into the racks and passing along he may open the small door connecting the trough with the crib above and in a little while the work is done, all under shelter and the cattle are fed under cover where they may stay during a storm.

All the buildings as well as the house, were designed by Mr. Hembrough himself according to his own ideas which were certainly good. He never allows a field to become worn but changes it to grass after a few crops of corn have been grown on it. His corn this year is a fine sample and he prefers the Reed Yellow Dent to any other.

Much more might be written about the place but enough has been said to show that brains mixed with muscle always pay well. All that will help the land is saved and a manure spreader places it to the best advantage.

Mr. Hembrough has a son who lives in Kansas and three at home and three daughters at home. In his house hangs a picture of four generations. Mr. Hembrough's father, the late Thomas Hembrough, so greatly honored himself, his son and the son of the latter.

Due reference should also be made to the admirable manner in which Mrs. Hembrough orders her household. The whole place is very neat and well kept while the dinner served the scribe was excellent, prepared without previous notice of his arrival except a telephone sent while enroute, yet gotten up with skill and such good taste, fully as good as the writer's mother would have cooked.

The whole visit was one of much pleasure.

## HIDDEN TREASURE IN THE BEND.

While visiting some old friends and long ago school mates, we met up with a couple of old ladies who are well preserved, both in body and mind. They were both born near the border of the Bend and are familiar with the history and legend of that noted territory. One still lives near Concord, the other in Missouri. These old ladies are both truthful and have exceedingly fresh and vigorous minds. In general conversation, the hidden treasure of the Bend, was mentioned, when these old ladies informed us of some things that we had never before heard.

They informed us that our article on the hidden treasure of the Bend was an old supposition; that they had heard, when children of much treasure having been buried in that locality. They also informed us that they had seen, when young girls, a noted character who used to live in the Bend. He owned no property, he had no people, he had no permanent dwelling place. He was tall and thin, dressed in a sailor's uniform, and he used sailor language, drank like fish and never agreed with hard labor, therefore he let it alone.

This peculiar specimen of humanity always had plenty of money, and was liberal with it. He would remark that his bank was getting low and that he would have to replenish. In a few days he would reappear with a great wad of money. This made the residents of the Bend think that the old man had his wealth cached in a sand bank located on the Uncle Billy Smith farm.

This old sailor man often, when under the influence of good corn juice, would use sea-faring language that none could understand. Sometimes he talked of ships that sailed the seas for profit but never entered a port; he also would mention the name of Captain Cook. Whether it could have been the wealthy Captain Cook whom we all have read about we do not know.

Some wise men have solved the problem by contending that our sailor man could not have been under the great Sailor Captain Cook; but his father or grandfather could have

sailed with that great man, and their family still reap the benefit of that great life on the ocean wave.

This old sailor man disappeared suddenly and many people believe he left a great treasure behind, buried somewhere in the Bend. A few years after his disappearance strange lights could be seen in the locality of the old Smith homestead and the natives said it was the old sailor man's ghost looking for his hidden treasure.

## SIMPLY? WELL, DON'T BE.

People Notice It—Drive Them Off With Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edward's Olive Tablets. The pimples will vanish after you have taken the tablets a few nights. Nothing ever cleansed the blood, the bowels and the liver like Olive Tablets.

Olive Tablets are the only successful substitute for calomel—they oil the bowels; there's never any sickness or pain after taking them.

Olive Tablets do all that calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are made of pure vegetable compounds mixed with olive oil.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Try them. Take one nightly for a week. Then look at yourself in the glass and see how you feel. 10c and 25c per box.

## WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

### GAVE CHAPEL TALK.

Dr. J. M. Mills addressed the Illinois college students, at their regular chapel hour Monday morning on "Religious and Political Conditions in the Chinese Empire." Dr. Mills has spent several years in the Orient since leaving Jacksonville, where he formerly resided. He is an old friend of Illinois college and received an honorary degree there from in 1902.

In speaking on the subject Dr. Mills said: "The Chinese empire, although the oldest existing government in the world, dating even from the time of Moses, is in some respects one of the newest governments. The Chinese have recently completed a revolution in four months, that it took the United States six years to accomplish, and already have taken front rank among the civilized powers of the world."

"All are aware of the inventions the Chinese have given us. They not only invented gunpowder and paper, but also playing cards, the game of chess, and one of the most modern inventions, re-inforced concrete. In learning the Chinese are second to none. Their classic library number 260,000 volumes when our ancestors were in a savage state. The classical attainment of a Chinese scholar can be estimated when it is known that to attain rank in civil service is equivalent to an American student learning by heart all of Shakespeare and Milton."

### CHURCH ADVERTISING.

In this issue of the Journal a space advertisement for the Central Christian church revival appears and other advertisements of the same kind have been appearing within the past two weeks. Newspaper advertising has been used effectively by churches in a number of other cities and the matter has been the basis for a good deal of discussion in the church papers. The question has been asked why not use newspaper advertising in building up a church? The best answer is to try advertising. Business is built up by advertising. The best way to kill any enterprise or project is to keep still about it and shut off publicity. What the church needs is to have its teachings, its meaning spread broadcast, brought to the attention of the people and so there is every reason to believe that newspaper publicity through space advertising is worthy of the serious consideration of the church.

## RECENT FIRE WILL BE INVESTIGATED

Commissioner Engel Tells Council He Is Seeking to Place Blame For Any Neglect—Mayor Davis Believes In Sub-Stations.

The City Council met Monday morning at the usual hour. Mayor Davis and all the commissioners were present when the roll was called by R. L. Pyatt, clerk. The minutes were read and approved, and then some time was spent in discussing the matter of fire protection. This subject came up as the result of a motion that the delinquency of the fire department at the Brady fire on Saturday afternoon be investigated.

Commissioner Newman made a report showing that the trouble with the sewer connections at the home of Mrs. Koch on West State street was not on city property and he saw no reason why the regular charge for opening the sewer and replacing the pavement should not be made. The Council concurred in this recommendation on motion of Commissioner Brennan.

Commissioner Knollenberg made a motion that Mayor Davis appoint a committee to co-operate with Commissioner Engel in investigating the cause of the trouble with the fire apparatus at the recent fire. Mayor Davis said he hardly thought it proper at this time to call for such a committee as it was entirely probable that Commissioner Engel already had such an investigation under way, although he had not conversed with the commissioner on the subject. Commissioner Engel said that he had started an investigation but was not ready to make a report. He said that the trouble at the fire was the result of the engine being without steam when it reached the fire; that for some reason the automatic lighter failed to work. He said that he had not yet found out for certain why the lighter didn't work and why this fact was not discovered before the engine reached the scene of the fire. Further he said that he had no objections to the council appointing a committee to co-operate with him if the council thought that such a course was advisable.

Commissioner Brennan said that it did not seem to him proper to appoint the committee at this time as Mr. Engel already had the matter under consideration. Mr. Knollenberg said if this matter was already under way that with the permission of his second, Mr. Newman—that he would withdraw the motion and this was done.

Continuing the discussion Commissioner Engel said as a matter of fact there have not been a fire up in the west part of the city for many years where much was saved if the flames had a good start before the arrival of the fire department. It is a long run to the west part of the city up hill all the way and there is practically no pressure from the mains in that locality. The only way to have such protection for the west part of the city would be by the establishment of a sub-station which would be easily accessible to all parts of the west end, he said.

Mayor Davis said that he hoped that before the end of this administration that the council could see their way clear to establish such a station possibly in the neighborhood of Duncan Park. He also mentioned that such protection was needed in the extreme southern part of the city. Out there a fire means a long run for the department and much of the way up hill. The mayor thought that only with the establishment of such stations would the city have really adequate fire protection. The main benefit from such stations would be the housing of chemical engines with the expectation that the chemical engine might arrive at the scene of a fire early and smother the flames, to a large extent until the arrival of the main department.

Commissioner Newman suggested that the council look into the matter of having the chemical engine placed on an auto truck with the idea in mind of getting to a quickly and smothering the flames until the arrival of the other apparatus. He believed that such an arrangement would do much in adding to the city's protection for fire. He thought the matter worthy of investigation and said that if the city decided to do anything in this line that he could arrange to have his son save a dealers commission for the city. The cost of a truck will be ascertained.

F. E. Farrell was present and asked about what could be done to improve conditions in the alley back of the stores on the square between Main and Sandy Streets. Ashes have been piled there for years and now the grade is so much higher than the street that water runs into the cellars. Mr. Farrell suggested that the city have the alley plowed, the trash hauled away and the cost divided among the property owners. The matter was referred to Commissioner Newman to investigate.

Mr. Newman suggested that some investigation be made through the legal department as to various alleys now said to be occupied by private property. He said he understood that Academy hall is partially situated on an alley and that McDouglas' coal office on East College avenue is in an alley.

Mrs. E. P. Kirby entertained at tea Monday afternoon, in honor of Dr. and Mrs. John M. Mills, who have been visiting in the city. The afternoon was one of much pleasure.

Miss Sarah Middleton entertained the members of the Inevitable club at a kitchen rush at her home, southwest of the city Monday evening in honor of Miss Edna Scott and Herbert Mawson, who are to wed Thanksgiving day. The house was tastefully decorated in green and white and the time was delightfully spent in playing various games, prizes being won by Grover Vasey and Homer Ranson. Music was also a feature of the entertainment. The different kitchen articles were concealed about the house, and the bride and groom-to-be were made to look them up which occasioned no little amusement. Substantial refreshments were served.

## MET AT LUNCHEON.

Men who are to serve as chairmen of soliciting committees in the campaign for the Women's college met at luncheon at the Peacock Inn Monday. E. E. Crabtree who is chairman of the general committee presided and Dr. Hancher spoke chiefly of the plans. A number of enthusiastic talks were made. One point emphasized was that everybody going into the campaign is doing so with a feeling of certainty that it will succeed. That is the prevalent idea in Jacksonville for nothing in this line that has been undertaken for the college during the past twenty years has failed. Announcement will be made within a day or two about the organization of committees.

## NO BLUE MONDAY AT ILLINOIS COLLEGE.

Football Team Working Hard For Game Against Lincoln.

There was no Blue Monday" at Illinois college yesterday. In fact there was two squads of football men out for practice and the interest in the coming game against Lincoln on Turkey Day is keen. Illinois realizes that they have the hardest game of the season, as Lincoln not only is heavy but have improved 50 per cent since they played here when Illinois was victors by score of 6 to 0. Tandy was practicing some drop kicks yesterday and Stewart tried his toe at punting. This afternoon the squad will scrimmage with the high school team and against the college scrubs, who will use some of Lincoln's formations.

Coach Harmon expects to have the field wired off so that there will be no cause of interference by the crowd.

## PASTOR SPEAKS ON 'THE THREE WIDOWS'

Revival Meetings Continue With Increasing Interest at the Central Christian Church.

The meetings at the Central Christian church were continued last night, when a good Monday night crowd was present. The work of H. J. Henderson as leader of the general song service is proving a revelation to even those who have known of his talent in this line of work. And the song service is proving a very attractive part of the meetings. The male quartet sang "Saved by Grace" in its best voice. Rev. Frank Gruenewald of the German M. E. church offered prayer.

The subject for the evening sermon was "The Three Widows," which the speaker used to introduce the story of Naomi, Orpah and Ruth. Mr. Darsie modernized the story and told how many people today deliberately leave wholesome religious and moral surroundings for dangerous ones, simply because there seems a little financial profit in making the change. And he impressed the fact that often disaster followed such a course as it did in the case of Naomi.

The speaker then characterized Ruth's choice of her mother-in-law's people and faith when contrasted her life-long home, friends and her native land as the choice of the best (the worship of Jehovah) rather than objects simply good. He said that such choices often come to us today. And that we are surrounded by a throng of good and worthy causes, each calling for our time and attention. Real success means the selection of the very best thing upon which to center our lives. And as in the case of Ruth's choice, this chief of all good things is today the service we render to God. "Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you."

In applying the lesson Mr. Darsie compared what men did for such worthy ends as pleasure, wealth, education, family and health with their service to God, and while not decrying the other, he maintained that the service of God was to be held above all these. For in the end, one might gain all these things and still be an abject failure for all eternity.

At the conclusion of the service two came forward to enlist for the service of God in Jacksonville. The whole meeting was filled with deep feeling and deepened consecration. Tonight the sermon subject will be "The Ladder That Reaches Nowhere."

## Sunday Services.

Large crowds attended the revival services at the Central Christian church Sunday. In the morning the pastor preached from the subject, "The Glory of Jesus." A duet was sung by Mrs. Taylor and Alex Campbell entitled, "O Morning Land." The pastor said that Jesus all through his life felt that he had come into the world for a purpose and that was to save men and women from their sins. One's life depends a great deal upon the purpose in view. Christ loved his fellow men, more than he did his own life. He was willing to undergo any sacrifice, any trials that he might benefit mankind. In just the proportion that we followed the example of Jesus in our every day walk and talk so in like manner will we be a great benefit to our fellow man and will hasten the coming of the kingdom of Christ. The pastor made an appeal for the church people to see the great opportunity they had of doing a great work for their Master.

The subject of "Baptism" was presented in the evening service. A quartet composed of Mrs. Taylor, Miss Corinne Carlson, J. Alex Campbell and C. L. Mathis sang "Jesus, and Shall it Ever Be," and the chorus choir sang an anthem. The pastor said that the Bible gives us only two ordinances, that of Baptism and the communion service. Various biblical texts were read and commented upon showing the ground for believing in baptism. But baptism avails nothing if it is not preceded by faith and repentance. Water alone can never save a man but it is one of the commandments obeyed by which men and women attest their faith.

## MISS MOORE HEARD IN PLEASING PROGRAM

Concert Given Monday Evening at Westminster Church, Under Auspices of Ladies' Aid Society.

One of the most pleasing of the musical events of the season was the concert given at Westminster church Monday evening by Miss Clara Catherine Moore, violinist, assisted by Miss Mabel Mathews, mezzo-soprano, and Miss Edna Sheppard, accompanist. The concert was given under the auspices of the Ladies' Aid society of the church and was well attended.

Miss Moore, who has supplemented her local instrument with study under the masters of Europe, needs little introduction to music lovers of Jacksonville. She immediately captivated her audience Monday evening by her remarkably pure tone and fine technique. She played with deep feeling and her efforts were well deserving of the generous applause. She gave as an encore, Piere's "Serenade." Miss Mathews who appeared in excellent voice was also enthusiastically encored and gave "Mr. Ladder," by Thayer. Miss Edna Sheppard filled the difficult role of accompanist with entire satisfaction and the organ parts were played by Prof. Walter D. Stafford, of the Peoria musical college.

The program follows:  
Romance and Allegro... Wienawski  
Andantino... Martini-Kreisler  
Gavotte... Rameau  
Minuet... Beethoven  
Tambourine... Gossec
